

# MONDAY

- Draw hands to show 7.15.
- $1.10 > 1.01$  ☐ true ☐ false
- $13 - 8 =$
- Name this shape.
- Write eleven thousand, one hundred and one as a numeral.
- How many faces are on a cone?
- If the date is 3 July. What was the date a week before?
- $700 + 500 + 300 =$
- Name this polygon.
- What is the sum of 65 and 25?
- Which month is in 3.4.07?
- $13 - 8 =$
- $2 + 70 + 500 =$
- Round 247 (nearest 10).
- Arrange these digits into the highest value.  
3 0 1 7
- $12^2 =$
- $7 \times 8 =$
- 1992 was a leap year.  
Was 1987 a leap year?
- $10 - 0.1 =$
- Can  tessellate?

# TUESDAY

- Write the number after 999.
- How many edges are on a cone?
- $17 + 8 =$
- 3 decades = years
- Round 474 (nearest 10).
- Is a wheel a sphere?
- $6^2 - 3^2 =$
- 4 centuries = years
- $0.39 > 0.4$  ☐ true ☐ false
- Which is the longest?  
☐ 1000 mm ☐ 100 cm ☐ 1 km
- Draw a reflection.
- $5 \overline{)103} =$  r
- $520 + 180 =$
- $2 \times 6 =$
- Name this shape.
- A2, B4, C6,
- $9.9 - 0.9 =$
- Write the number sentence for this problem. There were 4 boxes of chocolates each with 10 pieces. How many chocolate pieces?  
 $\square \times \square = \square$
- $\frac{7}{8} - \frac{3}{8} =$
- Draw after a  $\frac{3}{4}$  turn left.

# WEDNESDAY

- Draw hands to show 10.40.
- 0.5, 1, 1.5, , 2.5
- Name a hexahedron.
- $11 - 6 =$
- $1200 + 900 =$
- How many angles are in a nonagon?
- $100 - 42 =$
- $5 \overline{)158} =$  r
- What is the name of this shape?
- $110 - 70 =$
- Which is the longest?  
☐ 1 m ☐ 100 mm ☐ 1000 cm
- $6 \times 3 =$
- Name a month in winter.
- Can 93 be divided by 3 equally?
- Double 28.
- How many fortnights are in a year?
- Draw an ellipse.
- In 792, what is the place value of the 9?
- $1700 + 900 =$
- XIX, XVI, XIII,

# THURSDAY

- If yesterday was Wednesday, what is the day after tomorrow?
- $\$7.50 + \$2.50 =$
- $4 \overline{)160} =$
- $3 \times 9 =$
- Draw a line of symmetry on this shape.
- $12 - 10 =$
- XIV (Roman numeral) =
- Can 40 be divided by 3 equally?
- How many years between leap years?
- $4.4 + 1 =$
- How many faces are on a cone?
- $4 \times 300 =$
- Which set of lines is parallel?  
A B C
- $700 - 190 =$
- Which day has more daylight?  
☐ summer day ☐ autumn day  
☐ winter day ☐ spring day
- $2000 - 400 =$
- Write ten thousand and seventy as a numeral.
- $18 + 14 =$
- $20 \times 5 =$
- Which 2 shapes make a cylinder?  
and
